

THAT WHICH IS CLAIMED:

1. A toy vehicle display package comprising:

a generally cylindrical body defining a window aperture, a top and a bottom;

a base receivable within said bottom of said body and defining a plurality of slots and a vehicle support platform;

a cap received upon said top of said body; and

a plurality of tabs supported by said body and extending through said slots said tabs bending to secure said base to said body, said tabs also being removable.

2. The toy vehicle display package set forth in claim 1 further including a mirror supported within said body.

3. The toy vehicle display package set forth in claim 2 further including a mirror cover supported upon said vehicle support platform.

4. The toy vehicle display package set forth in claim 3 wherein said cap is shaped to resemble a tire and wheel.

5. The toy vehicle display package set forth in claim 4 wherein said vehicle support platform includes a pair of toy vehicle support posts.

6. The toy vehicle display package set forth in claim 1 wherein said cap is shaped to resemble a tire and wheel.

7. The toy vehicle display package set forth in claim 6 further including a mirror cover supported upon said vehicle support platform.

8. The toy vehicle display package set forth in claim 7 further including a mirror supported within said body.
